INTRODUCTION

Modern education involves not only the professional training of a specialist, but also the all-round harmonious development of the personality of students of higher education. The Decision of the National Agency for Quality Assurance in Higher Education of 21 June 2022 on the historical and cultural component of the educational process states that it is the study of the history and culture of one's own people, combination with the study of other fundamental humanities and social sciences, that form civic identity and patriotism, emphasises the need to strengthen the historical and cultural component as a mandatory component of higher education, emphasises that a higher education student should be ready to independently determine the patterns and analyses social processes that occurred in the past and are occurring now, understand their connections and draw historical parallels.

Thus, the educational discipline «History of Ukrainian Culture» is the educational component aimed at enriching and expanding humanitarian training, formation of creative activity, spiritual values, and outlook of future specialists.

The purpose of the course is the formation of a system of competences regarding the patterns of the national historical and cultural process and the main achievements of the national culture, assimilation of universal and national cultural values and norms.

The tasks of the educational discipline are:

familiarization with the main historical periods of the formation of the phenomenon of Ukrainian culture, the patterns of its functioning and development;

mastering the fundamental concepts and categories of Ukrainian culture and understanding the trends of modern socio-cultural transformations in Ukrainian culture;

forming a sense of patriotism, national consciousness, a high level of spirituality, promoting the establishment of universal human values.

The object of study of the discipline is the monuments of spiritual and material culture, created over the centuries and recorded in one form or another.

The subject of the educational discipline is the holistic process of creating monuments of spiritual and material culture, the study of these monuments as cultural phenomena, the historical conditions of their creation and the influence on the further development of culture.

The results of training and competence formed by the educational discipline are defined in the table 1.

Table 1

The list of self-studies in the course is given in table 3.

Table 3

List of self-studies

Name of the theme and/or task	Content
Topic 1–12	Studying the literature recommended by the teacher and studying the lecture material.
Topic 3, 6, 8, 9	Preparation for the discussion.
Topic 1–2, 4–5, 7, 9–12	Discussion of topical issues of seminar classes
Topic 11	Essay writing
Topic 1–6	Preparation for the test 1

The number of hours of lectures, practical (seminar) studies and hours of self-study is given in the technological card of the course.

TEACHING METHODS

In the process of teaching the course, in order to acquire certain learning outcomes, to activate the educational process, it is envisaged to use such teaching methods such as:

Verbal (informative lecture (Topic 2, 3, 4, 6, 10), problematic lecture (Topic 5, 7, 8, 9, 12), systemizing lecture (Topic 1, 11)).

Visual (demonstration of a visual source (Topic 1–3, 5, 6, 10), presentations (Topic 1–12)).

Practical (discussion (Topic 3, 6, 8, 9), work in small groups (Topic 3, 8, 11), essay (Topic 11)).

FORMS AND METHODS OF ASSESSMENT

The University uses a 100-point cumulative system for assessing the learning outcomes of students.

Current control is carried out during lectures, practical and seminar classes and is aimed at checking the level of readiness of the student to perform a specific job and is evaluated by the amount of points scored:

– for courses with a form of semester control as grading: maximum amount is 100 points; minimum amount required is 60 points.

The final control includes current control and assessment of the student.

The final grade in the course is determined:

– for disciplines with a form of grading, the final grade is the amount of all points received during the current control.

During the teaching of the course, the following control measures are used:

Current control: performance of interactive tasks (24 points), discussion of topical issues of the topic and participation in discussions (36 points), written test 1 (14 points), written test 2 (16 points), essay (10 points).

Semester control: grading.

More detailed information on the assessment system is provided in technological card of the course.
